

**CYBEX** CX 445T TREADMILL

CYBEXercise

The CYBEX CX 445T is a full blown commercial treadmill that won't blow your budget or your floor plan. The robust dual-level design speaks volumes about durability and demonstrates why the IS3 suspension is so comfortable. Its ingenious design provides a wide open running area with an ultra low hood cover in an exceptionally small footprint.

big performance, small space

# CX 445T treadmill

## Treadmill Features

### Comfort

Our Intelligent Suspension 3 (IS3) deck suspension system flexes primarily at the point of impact, absorbing shock where it occurs to provide an exceptionally comfortable experience unlike the traditional floating decks which indiscriminately give way and cause instability in a runner's stride. The dual-level design of the base lets you see IS3 at work.

### Convenience

The streamlined operation of the display provides direct use of Quick Start and intuitive access to the nine available programs. The Cool Down feature presents a two-minute cool down at the press of the button. The dual water bottle holder and utility tray keep everything at your fingertips.

### Compact

The full sized running surface is delivered with an ultra compact footprint that emphasizes the user experience. The elegant low profile hood design provides an unobstructed path for the user's stride which maximizes the usable running area.

### Durable

The 3.0 HP motor with PWM control combines with rugged 3.0" diameter rollers to provide exceptionally smooth and reliable operation at all speeds. The waxed-marine hardwood deck is double sided for extended life and needs no external lubrication.

## Basic Specifications

Running Surface	20" (51 CM) W x 60" (152 CM) L
Speed Range	0.5 mph to 11 mph (0.8 kph to 17.6 kph)
Elevation Range	0% to 15%
Programs	Quick Start, Manual, Heart Rate Control, Speed Interval 1, Speed Interval 2, Cardio, Weight Loss, Hill Interval, Rolling Hills, Hills and Pike's Peak
Information Displayed	Graphic display of program as well as distance, calories, calories/hr, METs, pace, heart rate, time, incline and speed
Heart Rate Monitoring	Includes Contact and Polar® capability (chest strap not included)
Safety	Permanently attached lanyard with removable key. CYBEX exclusive Safety Sentry™
Max User Weight	350 lbs (159 kg)
Connectivity	Provided by CSAFE (Fitlinxx® certification pending)
Customization	Choice of five standard colors  or select from over 180 custom colors 
Compliance	CE, ETL, ASTM, CSA, FCC
Dimensions	32" (81 CM) W x 72" (183 CM) L x 61" (155 CM) H
